RECENT PROJECTS

Trivia-API https://github.com/Great-Emeka/Trivia-API
- Used APIs to control and manage a web application using existing data models.
- Implemented API in Flask to make the Trivia game functional.
- Wrote documentation for all the endpoints I created

Note-Keeper-App https://github.com/Great-Emeka/note-keeper-app
- Designed a small and effective note taking app using React and Hooks
- Implemented responsiveness across several platforms using pure CSS

WORK EXPERIENCE

Training Coordinator   **August 2020 – Sep. 2021**

MiraTechnologies Ltd Ikeja Lagos, Nigeria
- Designed, planned and implemented training programs like virtual training, and boot camps which transitioned our software development training program from physical to digital.
- Handled beginner classes for students learning HTML5, CSS3, JavaScript and ReactJs, resulting in improved student's understanding of those stack and a 33% increase in new registered students.

Frontend Developer Intern   **May 2020 – July 2020**

E-Settlement Ltd Ikeja Lagos, Nigeria
- Collaborated with senior developers remotely to complete daily tasks which increased the company's productivity during the COVID-19 Pandemic.
- Converted several design mockups into responsive website using HTML, CSS, and JavaScript.
